

GENEST

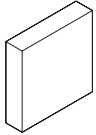

Manchester Stone™

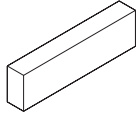

Manchester Stone™

Manchester Stone's larger sizes will add appeal and distinction to any building project. They lend strength, style, and a bold look of modern architecture when used as base course banding or for large scale projects. Available in a wide variety of colors and textures including Smooth Face, Ground Face, and Shot Blast and Brushed finishes. Genest's inhouse lab technicians also have the ability to custom color match, giving you the unlimited design versatility that today's architectural projects demand.
