

Genest Outdoor Square Fire Pit

The Genest Outdoor Square Fire Pit has a new modern design and comes in 2 standard color blends or three special order colors to accent your landscape. Made with solid block construction and easy to assemble it will be a family favorite for years to come.

Installation of the Genest Outdoor Square Fire Pit (must be removed from pallet):

- Determine the location and mark out the size of the square (49"x49").
- Create a solid base by removing 6" of material within your marked square.
- Fill this area with 6" of compacted gravel and level.
- Install the 1st and 2nd rows of Fire Pit Block on the gravel base according to diagrams 1 & 2.
- Apply a masonry adhesive to cap blocks and install per diagram 3, allow 48hrs for adhesive to cure.
- Install the square style metal protective insert.
- Fill the bottom of the pit with crushed stone.

PALLET WEIGHT: 1,700LBS • FINISHED SIZE: 49" x 49" x 15" (INSIDE: 24")
