GLASS INTO G-MIX!

4LBS LIGHTER

50% LESS CEMENT & 8% LESS CONCRETE WHILE EXCEEDING STRENGTH REQUIREMENTS

Since 1985, Genest has been using less cement in concrete block production than most block producers and now after years of experience and development, we are proud to introduce **G-mix™**. This formula uses at least **5% recycled content** and **half of the cement** traditionally used to produce concrete blocks. You can be sure that when you buy from Genest, you will have a low carbon footprint for your project. Contact us for specification details.

AVAILABLE IN ALL OUR ARCHITECTURAL FINISHES, SHAPES & SIZES - LET US QUOTE YOUR NEXT PROJECT!
